PROFESSIONAL EXPERIENCE

Website Development Trainer (Contract)

Meganet Computers, Nigeria

Apr 2022 – Jul 2022

- Conducted comprehensive training sessions on backend development, web design, and programming fundamentals for university students, helping them grasp core concepts in HTML, CSS, JavaScript, and PHP frameworks.
- Delivered hands-on lessons on building websites and RESTful APIs, enabling students to create functional websites and understand API integration for dynamic applications.
- Empowered trainees to design IoT prototypes, showcasing web development alongside hardware integration for a well-rounded technical experience.
- Mentored and guided students in developing web projects, fostering critical thinking and problem-solving skills while emphasizing the importance of scalability and security.
- Provided ongoing feedback and training resources to support continuous learning, significantly enhancing students' technical proficiency and employability.

Web Designer & Developer (Contract)

REPO, Nigeria

Sep 2022 – Oct 2022

- Led the redesign of the organization's website using WordPress, improving both the frontend user experience and backend scalability with PHP.

- Implemented SEO strategies, driving a 35% increase in organic traffic and improving search engine rankings.
- Developed and maintained an optimized, responsive site to improve functionality and meet performance standards, focusing on fast load times and accessibility across devices.
- Collaborated with cross-functional teams to ensure the website met all business requirements and design specifications.
- Assisted in the integration of WooCommerce to support e-commerce functionality, enhancing the platform's revenue generation capabilities.

Web Developer & SEO Specialist (Contract)

AUSNES LIMITED, Nigeria

Nov 2022 – Dec 2022

- Redesigned and developed the company website using WordPress and PHP, enhancing functionality, site layout, and responsiveness.
- Spearheaded a successful SEO campaign that increased website traffic and search engine rankings, significantly improving the site's online presence.
- Managed website maintenance and server monitoring, ensuring optimal website uptime and performance.
- Collaborated with the technical team to troubleshoot and resolve issues related to website performance, security, and database management.
- Focused on optimizing web performance and security, ensuring compliance with best practices for web application security.
